

# LOADING INSTRUCTIONS

1

Start with both outer and inner lids removed from case. Lock wheels before proceeding!

4

Use the horizontal strap to hold the monitor in place. Make sure that strap is secure before moving on to next step.

2

With glass surface facing away from the case, tip monitor backwards so that top portion of monitor rests on bottom foam.

5

Place inner lid into case and buckle straps to secure lid. (Case shown with inner lid buckled in place.)

3

Take hold of monitor from bottom and raise into place so that glass faces the inside of case.

6

Place outer lid into place and secure with outer latches. (Case shown with outer lid latched in place.)
