## Reusable 40" - 61" Flat Panel Plasma Display Cases

As an industry leader of quality **custom** manufactured shipping cases for over 25 years, Cabbage Cases is proud to present our flat panel plasma display case. Built on the concept of a "floating" case mounted within a rigid outer shell, we have manufactured over 800 plasma display cases during the past 4 years. We are continually improving our design with regard to protection (our current version has been evaluated with both a drop and tip-over test for a 42" display) and user friendliness (with the ability to load the plasma display into the case while the case remains on its wheels).

This case design has been developed to protect your display under the most extreme conditions of common carriers. It features a 3/8" ATA Style construction with ABS plastic outer surface, steel "ball" corner protection, spring loaded dish handles, .060 extruded aluminum double-channel edge protection and interlocking valance, shock absorbing rubber "bumpers", locking casters, and recessed keylockable twist latches.

**Remember**, any custom configuration can be manufactured to meet your transport needs. For example, when a lighter, smaller, and less protective case is needed for local use, corporate planes, etc.

### Specifications

Description	Weight (Empty)	Outside dimensions (Inches) (Incl. casters & bumpers)	Accessory storage space
40" plasma display case	185lbs	49(L) X 49(H) X 27(W)	44(L) X 29(H) X 7(W)
42" plasma display case	200lbs	54(L) X 47(H) X 27(W)	49(L) X 29(H) X 7(W)
50" plasma display case	220lbs	62(L) X 54(H) X 29(W)	57(L) X 34(H) X 7(W)
61" plasma display case	308lbs	74(L) X 59(H) X 31(W)	68(L) X 41(H) X 7(W)

### Lead Time

In most instances we can ship within 5 business days for the above cases. Lead times may be longer with any changes to the above specifications.
