

# DOWN THE BLOCK OR AROUND THE WORLD

Going places with **CABBAGE CASES** has never been easier

Our **EXCLUSIVE OPTIONS** of Tilt-Wheels and Extension Handle have been used on thousands of our cases for the last 20 years.

The chrome-plated steel **EXTENSION-HANDLE** pulls out and locks into place for easy transporting — and slides back inside the Cabbage Case when not in use.

*Rugged 3 inch Neoprene TILT-WHEELS* are engineered into the case structure. Pushing or pulling your case glides you through the Airport or the Boardroom easily.

These options work on both our LightFlite® style and our Heavy-Duty® (ATA) case.

TILT-WHEELS & EXTENSION HANDLE - add \$45.00  
TILT-WHEELS (alone) add \$33.00
